56 children had full attendance in Term 2 - well done.

They were presented with a certificate and can choose a book from our school Bookshop—new delivery of books received!

Last week I wrote about saac Donald— Young Engineer of the Year. Isaac designed a self tinting windscreen, designed to reduce glare and prevent accidents, especially in the winter when the sun is low in the sky. The organisers have since contacted Mr Fenton to say that the work

of nine other children got special mention...

Judges Highly commended: Alyssa , Hazel , Grace , Oliver, Libby and Jaxon

Distinction— Shortlisted: Finlay, Jasmine and Sophie-Lee

There were 6 others who received distinction, 21 merits and 6 highly commended. Fabulous results!

All these pupils will have their work on display at this year's inaugural Primary Engineer Leaders Award Public Exhibition to be held at Ulster University on June 20

Unfortunately the children will be in York!

Rosie Bear is in P3 H - great behaviour!

Extra playtime for excellent corridor behaviour—P5S
